Center for Environmental Innovation in Roofing (CEIR), Washington, DC. November 2007 to January, 2015. CEIR was established in 2007 to serve as the voice of the roofing industry for environmentally sustainable construction practices. The mission of the Center is to serve as a clearing house and sponsor for roofing research, an information source for sustainable construction practice, and an advocate for the roofing industry within the sustainable building community.

Vice President, Research. Accountability for oversight of Center research and educational programs, with an emphasis on stimulating new research and raising industry awareness of “green” building trends. Responsible for providing technical support for Center advocacy initiatives, including the development of position papers and research reviews.

Firestone Building Products, LLC, Indianapolis, Indiana. February 1985 to December 2007. Founded as a small entrepreneurial unit of Firestone Tire & Rubber Company in 1984, Firestone Building Products is now the largest manufacturer of commercial roofing materials in the world with annual revenues in excess of one billion dollars. Firestone's growth from start-up to industry leadership was driven by rapid deployment of new product technologies to better meet the needs of customers in an era of labor shortages and increasing energy and environmental demands.
