Ejercicio 6: Putting it all together (Poniéndolo todo junto)

Take turns speaking the following English paragraphs in Spanish. Note: The paragraph in *italics* contains reflexive verbs.

Monday in the Office

On Monday, I have to work in the office.

After I wake up, I need to take a shower and get dressed. If I have the time, I like to prepare breakfast and sit down with the paper. But if I'm late, I have to eat sweet bread from a bakery on the corner.

Before I leave the house, I need to take out the trash. If I forget, I can call my neighbor and ask for help. But I try to remember because I don't like to impose on my neighbor.

When I am in the office, I have to answer the phone and direct the calls to my workmates. It's important to direct each call to the appropriate person, or our customers will not like our service. It's difficult to answer all the calls, and the boss yells, "You have to answer faster!" But sometimes a workmate is able to help me.

The office is very busy, and at the end of the day I am tired. I need to go on vacation! Perhaps next Monday, I'm going to ask for the day off.
